

Winter Term 2014/15

Direct Democracy

Prof. Dr. André Kaiser

Seminar Class Time: Fri 12.00 – 13.30

Exercises Class Time: Fri 17.45 – 19.15

Classroom: Hörsaal des Forschungsinstituts

First session: 10 October 2014

Course description:

This course consists of a seminar and accompanying exercises on how to develop research designs in the field of direct democracy. We will explore empirically the manifold institutions of direct democracy. All of them allow citizens to decide directly on actual policies, however in very different ways. We concentrate on the positive analysis of direct legislation across space and over time and study its effects on political interaction and policy output. Hence, we are not concerned with normative considerations of the pros and cons of direct democracy. We simply start from the assumption that direct democracy is a complementary aggregation mechanism for decision making in modern democracies alongside representative democracy.

Logistics:

Enrolment will take place in the first session. After that, no further enrolments will be accepted. Students are expected to:

- attend sessions regularly
- actively contribute to class discussions
- complete assigned readings according to schedule
- give a presentation in the seminar (for all participants)
- write a term paper of about 15 pages in length, handed in on 15 March 2015 (late assignments will be penalized, unless prior arrangements are made!).

Since nearly all reading assignments are in English, this will be the general classroom language as well. Participants therefore must know enough English to be able to participate actively. Perfection is not required – you just need to understand and make yourself understood.

Readings:

Maduz, Linda (2010). Direct Democracy. *Living Reviews of Democracy* 2 (<http://democracy.livingreviews.org/index.php/lrd/index>).

Jung, Sabine (2001). *Die Logik direkter Demokratie*. Wiesbaden: Westdeutscher Verlag. This is probably the only German-language book you will read in this course. Enjoy it!

Reading assignments:

A reader with the required texts will be made available to participants from early October.
